

Payment review

Did you pay the right fee for childcare 2017?

It is a question of fairness that everyone pays the right fee for preschool (förskola) and school-age educare (fritidshem).

Starting 2019 the income you have informed us about will be compared with the income tax return you have submitted to Skatteverket. This control shows if your family has paid the right fee.

If the income information you have submitted to Säter Kommun is lower than the one you have reported to Skatteverket you will get an extra invoice from Säter Kommun. If you have paid too high fees you will be refunded.

Those who have the right to be refunded will receive a letter with a form where you fill in your bank account number. The money will then be sent to your account.

The review will be done two years in arrears because the information from Skatteverket isn't available until then.

You can provide information on your income at www.sater.se "E-tjänster" (can only be done forwards from the next month.) Do this as soon as your income changes to avoid having to pay extra in arrears.

For more information (only in Swedish):

www.sater.se/barn-utbildning/forskola/avgiftskontroll

Best regards
